

# Year Plan Generator

For better accuracy, upload the index page of your course, or use Perplexity to generate a detailed list of topics and subtopics for the lesson.

## 1. Prompt to Paste in Perplexity:

```
Generate a complete, structured list of all topics and subtopics
for the CBSE syllabus for [Class] [Subject].
Follow the official CBSE/NCERT curriculum.
Break down each chapter into detailed subtopics, concepts, and key
points.
Present the output in a clear hierarchical format (unit → chapter →
topics → subtopics).
Ensure no important concept is missed and include both theoretical
and practical components where applicable.
Search well and do it
```

## 2. Prompt to paste in Claude:

```
You are a school academic plan document formatter. Generate a
formal academic year
plan table in the EXACT format described below.

---

### DOCUMENT HEADER (centered at top):

[SCHOOL LOGO PLACEHOLDER - leave a blank square box on the left
side,
approximately 60x60 pixels, with a thin border and the text "SCHOOL
LOGO" inside]

**THE [SCHOOL NAME], [CITY/TOWN]**
**ACADEMIC PLAN [YEAR] - [YEAR]**

---

### DOCUMENT SUB-HEADER (left-aligned):
```

**\*\*Class:\*\* [e.g., XII A & JEE]**

**\*\*Subject:\*\* [e.g., Computer Science]**

**\*\*Name of the Teacher:\*\* [Teacher Name]** <- right-aligned on the same line

**\*\*Textbook:\*\* [e.g., Tamil Nadu Govt. Textbook]** <- right-aligned below teacher name

---

### TABLE FORMAT:

Create a formal bordered table with these EXACT 7 columns with these EXACT column headers:

|         |            |        |        |                                 |
|---------|------------|--------|--------|---------------------------------|
| Month   | Week       | Period | Ch.no. | Name of the Topics / Sub Topics |
| Pa. No. | Assignment |        |        |                                 |

#### Column width guidelines:

- Month - narrow, merged across multiple rows
- Week - narrow (Roman numerals: I, II, III...)
- Period - narrow (number of periods)
- Ch.no. - narrow (chapter number e.g., 5 & 6)
- Name of the Topics / Sub Topics - WIDEST column, takes up most space
- Pa. No. - narrow (page range e.g., 47-73)
- Assignment - medium width

#### Table formatting rules:

- Use proper thick outer border and thin inner cell borders
- Month cell should be VERTICALLY MERGED across all its rows and rotated/centered
- Week uses Roman numerals (I, II, III, IV, V...)
- Chapter topics should list the CHAPTER NAME in bold, followed by a dash-separated list of all sub-topics

- Multiple chapters in the same week go in the same Topics cell, separated clearly
- Page numbers show the range (e.g., 47 - 73)
- Assignment column gives a short task related to the chapter

---

### DATA TO FORMAT:

Month: [e.g., January (WD-19)]

Fill in the following rows:

Row 1:

- Week: II
- Periods: 8
- Chapter No.: [e.g., 5 & 6]
- Topics: [Paste your chapter name and sub-topics here, comma or dash separated]
- Page No.: [e.g., 47 - 73]
- Assignment: [e.g., Explain the data types in Python.]

Row 2:

- Week: III
- Periods: 2
- Chapter No.: [e.g., 6]
- Topics: [Chapter name and sub-topics]
- Page No.: [e.g., 74 - 88]
- Assignment: [e.g., Write a detail note on for loop.]

Row 3:

- Week: IV
- Periods: 8
- Chapter No.: [e.g., 7]
- Topics: [Chapter name and sub-topics]
- Page No.: [e.g., 89 - 113]

- Assignment: [e.g., Explain the different types of function with an example.]

Row 4:

- Week: V  
- Periods: 6  
- Chapter No.: [e.g., 8]  
- Topics: [Chapter name and sub-topics]  
- Page No.: [e.g., 114 - 131]  
- Assignment: [e.g., Explain about string operators in Python with suitable example.]

[Add more rows as needed in the same format above]

---

### OUTPUT FORMAT:

- Output as a clean, print-ready docx document  
- Use black borders for all table lines  
- Font: Times New Roman or similar serif font (formal academic style)  
- All text inside table cells should be small (10-11pt equivalent)  
- Chapter headings inside the Topics cell should be BOLD  
- Sub-topics should follow after a colon or dash in regular weight  
- The full document should look like an official school document  
- Leave a clearly visible empty box placeholder for the school logo  
- The output should be a downloadable landscape document.

---

Generate the complete formatted academic plan table now.

Duration of the course is: **[Month ]**

This screenshot shows the 'Academic Plan Prompt Template' quiz editor. At the top, there are buttons for 'Settings', 'Preview quiz' (highlighted with a red box), and 'Publish'. The quiz details show '17 Questions', '17 Points', and '9 mins'. Below this, there are 'AI actions' and buttons for 'Add similar questions', 'Add answer explanations', 'Translate quiz', and 'More options'. The main area displays two questions:

**01 MULTIPLE CHOICE • 30 sec • 1 Pt**

Which element is required in the document header at the top of the academic plan?

- ☐ A footer showing teacher signature line
- ☐ A watermark of the district emblem
- ☒ A centered school logo placeholder box
- ☐ A right-aligned calendar widget

**02 MULTIPLE CHOICE • 30 sec • 1 Pt**

What alignment is specified for the document sub-header items like Class and Subject?

- ☒ Left-aligned text blocks
- ☐ Centered with logo box

On the right, there is a 'Find questions' sidebar with a search bar and a 'Generate with AI' button.

9.

This screenshot shows the 'Assessment' interface for 'Raam Academy' in 'Computers' for '12th Grade'. The top navigation bar includes 'Edit', 'Save', 'Share', 'Worksheet', and 'Preview'. The 'Start now' button is highlighted with a red box. The main content area shows '17 questions • 17 Points' and a 'Show answers' toggle. The questions are the same as in the previous screenshot.

10.

This screenshot is similar to the previous one, but the 'Worksheet' button in the top navigation bar is highlighted with a red box. The 'Start now' button is also highlighted. The main content area shows the same quiz details and questions.
